Executive Education Takes on South Africa!

▲ Our students, alumni, faculty, and staff traveled to Cape Town and Johannesburg for this year's International Business Trip—an unforgettable journey combining global business insights with cultural exploration. Highlights included visits to the Cape of Good Hope, the Nelson Mandela Museum, a Lion Park Safari, and four industry site visits across nonprofit, telecom, and healthcare sectors.

AI & the Future of Finance with Bank of America

▲ We welcomed Brenton Farwell, Senior Technology Executive at Bank of America, for an exclusive discussion on how AI is transforming finance. In partnership with Florida Atlantic's Career Center, students gained insider insights into how one of the world's largest banks drives innovation—plus valuable guidance on internships, career paths, and how advanced education sets them apart.

EXPLORING THE EXECUTIVE PHD JOURNEY

▲ Executive PhD students Bernt C. Klein, Britta Kelley, and Danita DeHaney, share how FAU's program expands leaders' expertise in areas like data analytics, strategy, and game theory—shaping executives to think bigger and lead with impact.

WHO SHOULD TAKE THIS COURSE?

This course is for professionals who are struggling with what to do, along with being challenged to get it done.

It's designed for:

- Marketers expected to deliver results, without the tools, support, or structure to execute
- Entrepreneurs who can't keep guessing or spending on strategies they don't fully understand
- Aspiring marketers seeking practical, job-ready skills that build trust and drive growth

If you've felt stuck in strategy meetings, overwhelmed by digital complexity, or sidelined for not producing fast enough, this course is built to change that.

WHERE'S THE VALUE?

Developed by a seasoned digital marketing expert, this course blends years of industry insight with cutting-edge AI tools to streamline execution and drive measurable results. Proven by success stories, past students credit the course with transforming their careers and delivering real impact at their organizations.

WHAT THIS COURSE ADDRESSES AND WHY TAKE THIS ONE VS. OTHERS?

While most courses give you a rundown of tools, this one gives you a roadmap. It's not just about knowing; it's about doing. From SEO to content marketing to lead nurturing and analytics, it's comprehensive. You'll learn to implement it all using AI flows designed to save time, reduce cost, and eliminate friction. Led by an internationally recognized digital strategist and best-selling author, this course doesn't just teach - it transforms.

SALES AND MARKETING 561.297.2651

In today's always-on world, content is at the heart of every successful brand strategy. As businesses compete for attention across digital platforms, the demand for professionals who can create compelling, strategic, and platform-optimized content continues to grow. FAU's content creation programs empower participants to think

like creative strategists—combining storytelling, design thinking, and emerging technology to produce content that connects, converts, and delivers measurable impact. Through hands-on projects and real-world case studies, you'll build the skills to lead in today's fast-moving content economy.

> NEW COURSE <

INNOVATION_{FOR} CONTENT CREATION FOR BUSINESS PROFESSIONALS

Designed for professionals navigating today's fast-paced, digital-first world, this certificate blends in-person and online instruction with a hands-on capstone project to equip participants with real-world implementation skills. Through 8–10 dynamic modules, the program explores the intersection of strategy, creativity, and innovation—focusing on content creation that drives results and aligns with business goals.

Participants will gain a deeper understanding of the evolving media landscape, the impact of emerging technologies like AI, and the tools needed to develop impactful, multiplatform communication strategies. Taught from a design thinking and creative strategist perspective, the certificate features case studies of brands breaking boundaries and offers a new framework for content innovation that connects with today's audiences.

PROGRAM OBJECTIVES:

- ☑ Introduce innovation in content creation for communications and business professionals.
- ☑ Focus on practical application across today's digital, social media, and tech-driven landscape.
- ☑ Teach principles to apply innovation creatively and strategically across platforms.
- ☑ Foster a productive mindset for the evolving content economy.
- ☑ Emphasize AI's impact and the importance of digital tools in brand communication.
- ☑ Equip participants to become content innovators and strategic problem-solvers.

FROM WASTE TO WINS: HOW LEAN SIX SIGMA DRIVES IMPACT ACROSS INDUSTRIES

**IN CONVERSATION WITH
DR. TRES BISHOP,
FACULTY INSTRUCTOR – FAU
EXECUTIVE EDUCATION**

At Florida Atlantic University's College of Business, Lean Six Sigma isn't just theory — it's a practical framework for leaders to identify inefficiencies, reduce waste, and create measurable impact across industries. We sat down with Dr. Tres Bishop, faculty expert and instructor for FAU Executive Education's Lean Six Sigma Professional Development Programs (PDP), to discuss how this methodology helps professionals lead smarter, stronger, and more strategically.

Q&A WITH DR. TRES BISHOP

Q: For those new to the concept, what exactly is Lean Six Sigma?

A: Lean Six Sigma combines two powerful improvement methodologies — Lean, which focuses on eliminating waste, and Six Sigma, which reduces variation and defects. Together, they provide a structured, data-driven approach to solving problems efficiently and improving outcomes in any organization.

**"LEAN SIX SIGMA TURNS
COMPLEX PROBLEMS
INTO MEASURABLE
RESULTS."
– DR. TRES BISHOP**

Q: Many assume Lean Six Sigma is only for manufacturing. How does it apply across industries?

A: That's one of the biggest misconceptions. While it started in manufacturing, Lean Six Sigma can be applied anywhere — from healthcare and finance to government, hospitality, and education. Every organization has processes that can be improved. We've seen hospitals reduce emergency room wait times by 40%, local governments cut permitting delays in half, and universities streamline administrative workflows.

**"EVERY ORGANIZATION
HAS PROCESSES THAT
CAN BE IMPROVED –
LEAN SIX SIGMA GIVES
YOU THE TOOLS TO
MAKE IT HAPPEN."**

Q: What makes Lean Six Sigma so effective?

A: It's structured problem-solving based on the scientific method. It removes guesswork and replaces opinion with data. It's also people-driven — when implemented correctly, everyone in the organization has a voice in identifying problems and improving processes. That combination of rigor and collaboration is what makes it so powerful.

Q: How is FAU's Lean Six Sigma program designed for today's professionals?

A: We redesigned our program to reflect modern industry needs. We aligned with the Council for Six Sigma Certification (CSSC) for global recognition, restructured our content to focus on service-based industries, and added hands-on, gamified learning to keep participants engaged. It's a rigorous but enjoyable way to learn tools that directly improve performance and career value.

Q: Why should professionals invest in Lean Six Sigma certification now?

A: Lean Six Sigma professionals are problem solvers — and that skill is always in demand. Whether the economy is booming or challenging, organizations need people who can improve efficiency, cut costs, and enhance customer experience. Earning your certification signals that you think critically, make decisions based on data, and drive measurable results.

EXECUTIVE MASTER OF ACCOUNTING CONCENTRATIONS

561.297.6000 ■ ACCOUNTING.FAU.EDU

FORENSIC ACCOUNTING

Gain the forensic accounting skills and knowledge needed to detect, investigate, and prevent fraud, money laundering, and other financial crimes.

Our faculty of professors and industry experts integrate academic research with real-world practice. Many of our instructors are active practitioners in the field of forensic accounting, bringing firsthand experience in investigative work and expert witness testimony to the classroom.

Develop a solid skillset in auditing, analysis, dispute resolution, litigation support, valuation, expert testimony, and interviewing.

DIGITAL ACCOUNTING FORENSICS AND DATA ANALYTICS

Gain a competitive edge by combining your accounting skills with data analytics!

With the big-data revolution, old-fashioned, simple financial analysis tools have been supplanted by more sophisticated techniques and technology. Accounting firms and financially oriented organizations (like FINRA and the SEC) are investing heavily in descriptive, diagnostic, predictive, and prescriptive data analytics and special analytical tools; they need skilled analysts to use them.

Stand out as a professional who can apply digital accounting forensics and data analytics to both hard (financial) data and soft data (e.g., email, social media content, videos, and narrative reports).

TAX

Tax is a critical aspect in all areas, including inside CPA firms, industry, and government. The Master of Accounting (MAcc) degree with a concentration in Tax takes you far beyond simply filling out tax returns. You will delve into tax strategies and tax planning for wealthy individuals, corporations, and partnerships.

Gain maximum practice flexibility and enhance your year-round value by performing tax work during tax season and conducting audits, consulting, or other work during the rest of the year! You can gain a solid Tax foundation without an undergraduate accounting or business degree required.

Industry experts and tax specialists, many who have worked for the IRS or own their own tax practices, cover important tax topics including Tax Research, International Tax, Corporate Tax, Partnerships Tax, IRS Practices and Procedures as well as areas related to auditing and consulting: Advanced Auditing, Accounting Information Systems, and E-Commerce.

PROFESSIONAL ACCOUNTING

Tailored to the needs of busy professionals who want to earn their master's degree while working full time. Students gain specialized knowledge and skills with a focus on the Certified Public Accountant (CPA) credential. Those with an undergraduate degree in accounting have the option of completing the program in as few as three semesters.

CPAs work in all sectors of the economy, public accounting, government, and in private companies. FAU's Accounting program is well known and highly respected in the South Florida accounting community, with many firms—from Big 4 to regional and local ones—seeking out FAU students and graduates.

Combine your newly acquired knowledge and skills to launch your accounting career or land your next promotion. Our career support services include a dedicated specialist for resume review and LinkedIn profile and networking advice. Hiring firms recruit directly from our program as well as through career fairs held each semester both in person and virtually.

EXECUTIVE MASTER OF TAXATION 561.297.6000 ■ TAXATION.FAU.EDU

Achieve your **Executive Master of Taxation (EMTAX)** degree in just over two years, all while maintaining a balance between your professional and personal life. Designed for working professionals, our program ensures you can manage your demanding career without the added stress of coursework during peak tax seasons, as no assignments are due in the spring semester.

With flexible options to complete the program entirely online, attend in-person classes one Saturday per month, or combine both formats, you can tailor your education to fit your schedule and goals.

PROGRAM INFORMATION

- ✎ Program starts every Summer (May) and Fall (August)
- ✎ Class delivery options include fully online, live-remotely, and in person one Saturday per month at Davie campus
- ✎ 28 to 32-month EMTAX curriculum (30 – 36 credits) – no classes during spring semester:
 - Business and accounting foundation courses are included in the curriculum, if required
- ✎ Program fees: \$900/credit hour

ADMISSION REQUIREMENTS

- ✎ Regionally accredited bachelor's degree in any discipline or foreign academic transcript evaluation
- ✎ Approximately 3.0 GPA over last 60 undergraduate degree credits
- ✎ Work experience highly recommended
- ✎ Current professional resume
- ✎ Two letters of recommendation
- ✎ GMAT/GRE exam scores may not be required for applicants who meet admission criteria

Beyond the Classroom

How FAU Executive Education Connects Students to Industry & Opportunity

TECHNOLOGY & INNOVATION

► At the eMerge Americas Convention in Miami, Executive Education students explored cutting-edge innovations in AI and cybersecurity while networking with top tech companies from across South Florida. This hands-on experience helped students position themselves for opportunities in one of the fastest-growing sectors.

HEALTHCARE LEADERSHIP DEVELOPMENT

At the American College of Healthcare Executives Congress in Houston, MHA students joined more than 7,000 professionals to explore the future of healthcare leadership. They gained insights into industry trends and leadership strategies, while making career connections with healthcare executives nationwide.

LOCAL NETWORKING IN PALM BEACH

▼ Our Palm Beach Community Connections event, held twice a year in downtown West Palm Beach, brings together business leaders, professional organizations, and students for an evening of networking, resources, and local engagement.

We believe investing in community relationships and providing opportunities for student engagement are essential to developing well-rounded, future-ready professionals. At FAU Executive Education, we believe that powerful learning extends far beyond textbooks and lectures. Through strong partnerships, high-impact events, and community engagement, our students gain access to the people, ideas, and industries shaping the future of business, healthcare, technology, and beyond.

HEALTHCARE CAREER ADVANCEMENT

▲ During A Night of Networking and Conversations with Healthcare Professionals in Ft. Lauderdale, students engaged directly with healthcare leaders—including CEOs and administrators—gaining career guidance, learning about employment opportunities, and building relationships to support their advancement.

SPORTS BUSINESS CAREER ACCESS

An FAU MBA student in Sport Management attended the Sports Industry Networking & Career Conference (SINC) in Washington, D.C., where top organizations offered mock interviews, career coaching, and industry insights—from esports to league operations—at one of the nation's top sport business events.

SUPPLY CHAIN LEADERSHIP SERIES

▲ Our event, Managing Supply Chains in an Age of Chaos, featured executives from Carrier Global, OL USA, and PortMiami sharing how they navigate global disruptions and technology shifts. Attendees gained actionable insights and built valuable connections with industry leaders.
