

Certificate in Event Management (EVMN)

The undergraduate certificate in Event Management provides a broad, operations-focused curriculum to those who have interest in the meetings, incentives, conferences and exhibitions (MICE) industries – broadly termed the “event industry.” As independent meeting planners, government/business/association planners, incentive travel, or social catering and special event professionals – the event industry is tremendous. According to the Events Industry Council (EIC) “...on a total GDP basis, the events industry is as large as the 13th largest global economy.” (<https://eventscouncil.org/COVID-19/Economic-impact-research>)

Students must complete **15 total credit hours** from the courses listed below. The Certificate in Event Management is available to **both degree-seeking AND non-degree-seeking students**. Courses must be taken at Florida Atlantic University (FAU). All students should seek the assistance of Student Academic Services (see below) in *advance* of registering for any course or courses.

After completion of *all* courses with a grade of “C” or higher, students may then request their certificate from the Student Academic Services office (academic advising) located in the FAU College of Business complex, Boca Raton campus, Fleming West Building, Room #102, (561) 297-3688. For further information on hospitality, tourism, or events careers – or this certificate’s content – please reach out to the Hospitality and Tourism Management Program Director, Dr. Peter Ricci at peter.ricci@fau.edu
