

Information Security Minor (ISEC) or Certificate (ISEC)
(printed from www.business.fau.edu/advising)

Information technology security is an essential element in social, political and economic arenas. The **minor** in Information Security is available **to degree-seeking students** upon successful completion of the coursework below and the simultaneous successful completion of a **bachelor's degree at FAU**. A maximum of 3 credits used for the minor may count toward other Business major requirements. A minimum of two courses (6 credits) must be exclusive to the minor. For exceptions, a petition should be submitted to the ITOM Department Chair.

The **certificate is available to all students**. Students pursuing the certificate may apply for it in the College of Business Office of Student Academic Services, FW 102, upon successful completion of the coursework below.

Students cannot obtain both a certificate and a minor. Both programs require 12 credits each, with minimum grades of "C" required in all courses for the minor and certificate. For the minor, at least 9 of the 12 credits must be earned from FAU. For non-Business majors, waiver of prerequisites will be made on a case-by-case basis.

Required courses (3 credits each)

Business Data Communications	ISM 4220 (Pre: ISM 2000)
Information System Security	ISM 4320
Mgmt. of Info. Assurance and Security*	ISM 4323*
Computer Forensics*	ISM 4324*

*Computer Crime (CJE4668) or Special Topics (CCJ4934) with an emphasis on corporate security may be substituted for either of these courses.
