

Accounting Program (ACCT or OACG)

The following information is a general overview of the program. Academic advising is recommended before registration each term.

General Degree Requirements

A minimum of 120 credit hours are required for the degree. See university catalog for official list of degree requirements. The BBA degree is available in person or fully online. A BS degree is also available with six additional credits of advanced math.

Maximum Course Attempts

FAU counts a “course attempt” as any time a student is enrolled in a course (at any institution) and earns either a grade or a “W”. FAU COB students may not attempt any course more than twice; **third attempts are not permitted**. Transfer students who have not successfully completed a pre-business course within three attempts are **not eligible to declare a business major at FAU**. **The College of Business will not permit fourth attempts for transfer students**. Transfer students who have already attempted a pre-business course twice at a previous institution should speak with an advisor for more information.

Intellectual Foundation Program (IFP) Courses

The pre-business foundation courses satisfy much of the IFP, but the following additional coursework is required. Students with an AA (Associate of Arts) degree from a regionally accredited Florida Public Institution are deemed to have met the IFP. To view the entire IFP course list, use this case sensitive URL: http://www.fau.edu/ugstudies/IFP_curriculum_sheets.php.

About Accounting

Accounting is the process of identifying, measuring and communicating economic information to permit informed judgments and decisions by users of the information. Accountants maintain and audit records and prepare financial reports for organizations and individuals. They also advise on associated record keeping and compliance requirements. The accounting major provides students with a solid educational foundation for entry into professional careers in accounting-related areas of business and government. In addition to reviewing the requirements listed here, visit the School of Accounting website for additional information including information on becoming a Certified Public Accountant (CPA) or obtaining other certifications such as CMA, CIA, CISA, CGFM, or CFE.
