

Economics with Concentration in Business Economics Program (ECON-EBUS)

The following information is a general overview of the program. Academic advising is recommended before registration each term.

General Requirements

A minimum of 120 credit hours are required for the degree. See university catalog for official list of degree requirements. This program is available as a BBA degree or, with six additional credits of advanced math, a BS degree.

Maximum Course Attempts

FAU counts a “course attempt” as any time a student is enrolled in a course (at any institution) and earns either a grade or a “W”. FAU COB students may not attempt any course more than twice; **third attempts are not permitted**. Transfer students who have not successfully completed a pre-business course within three attempts are **not eligible to declare a business major at FAU. The College of Business will not permit fourth attempts for transfer students**. Transfer students who have already attempted a pre-business course twice at a previous institution should speak with an advisor for more information.

Intellectual Foundation Program (IFP) Courses

The pre-business foundation courses satisfy much of the IFP, but the following additional coursework is required. Students with an AA (Associate of Arts) degree from a regionally accredited Florida Public Institution are deemed to have met the IFP. To view the entire IFP course list, use this case sensitive URL: http://www.fau.edu/ugstudies/IFP_curriculum_sheets.php.

Upper Division Business Elective (UDBE): Minimum One Course Required

Requirement	Suggested Option: Internship
All business core majors must complete 51 credits (17 courses) of upper division business coursework. ECON-EBUS requires 16 courses in the core and the major; the 17 th course is an elective chosen by the student. Choose ONE 3000 or 4000 level business course not already taken in the core or major.	Students interested in an internship as their Business Elective may schedule an appointment with a College of Business career and internship advisor.

About Economics

Economics is the study of choices made by individuals and markets, and how effectively society meets its human and material needs. The Economics Department offers two undergraduate economics programs that prepare students for careers in banking, government, data analysis, teaching, and advanced graduate work:

- Economics with a Business Economics concentration (ECON-EBUS):** This program has the same diverse foundation in core business principles as other majors in the College, but also integrates economics courses in such a way that the student can analyze business problems with the insight that the economics discipline offers.
- General Economics (ECON):** This program is designed to provide a broad liberal arts education with emphasis in Economics and the Social Sciences. If you are interested in the General Economics Program, please view our General Economics program sheet available at www.business.fau.edu/majors.
