Introduction to Health Research and Epidemiology	HSA4700	HSA3111 and STA2023
Healthcare Marketing	MAR4712	60 credits; MAR3023

*Some courses may require students to be declared in their major or to receive authorization from an advisor if not a business major.

Pre-requisites

The minor can be completed without taking any additional pre-requisites; however, note that some courses do have pre-requisites that a non-business major may not have taken. If you have not taken the pre-req of one of the Health Admin electives, you cannot take that course.

Additional Requirements

The **minor is open to degree-seeking students** not majoring in Health Administration and allowed upon successful completion of the course work above and the simultaneous successful completion of a bachelor's degree. For Business majors, a maximum of 3 credits used for the minor may count toward other Business major requirements. A minimum of 6 credits must be exclusive to the minor. A minimum of 9 credits for the minor must be taken at FAU.

Timely Graduation

Minors and certificates should be considered an optional direction for elective credits. Students may not add a minor or certificate without permission from a COB advisor (and main college advisor if different). Students are generally not permitted to add a minor/cert after earning 90 credit hours or if completing it will result in an Excess Hour Surcharge.

Maximum Course Attempts

FAU counts a "course attempt" as any time a student is enrolled in a course (at any institution) and earns either a grade or a "W". FAU COB students may not attempt any course more than twice; **third attempts are not permitted**.

The FAU Catalog is the official source for information about these requirements.
